Crop Reports.

What Our Correspondents have to
Say of the Outlook.

We give below the reports of our
correspondents on the crop outlook
in this district. A careful perusal
will show that though the crop will
not be large it will be fair probably
averaging a half of the usual yield,
especially as abundant showers
have fallen this week.

LOON CREEK.

Had lots of rain. Crops in
good shape.

PILE HILLS.

Prospects very satisfactory.

BALCHMERE.

Outlook fairly satisfactory. Rain
needed.

VERNON.

Fully fifty per cent. of the crop
in this district is a total failure,
partly through drought but more
particularly on account of gophers.
Some fields of wheat are looking
well and oats and barley will be a
good crop yet should we get more
rain soon. Potatoes and other
roots are up to the average.

SPRINGBROOK.

Despite the severe drought the
summer fallows promise to yield a
fairly good crop, and some are ex-
pecting them to go as high as 20 to
25 bushels per acre. Breaking,
where put in deep, will almost
certainly result in better fallows. The
stubble is short and unless it improves
it will be difficult to cut.
Grain sowing is past recuperation,
but fortunately very little was
sown. With favorable weather an
average of 10 to 12 bushels per
acre may be expected.

SUNNY SOUTH.

The outlook is not bright. The
crops on breaking are best but all
straw is short. Drought and goph-
ers are both playing havoc.

WIDE AWAKE.

The long expected June rains
have not come. Several nice
showers fell but did not moisten
the ground deep enough to be of
much benefit. Until lately it was
not easy to distinguish stubble
from fallow crop but the advantage
of the latter is daily becoming more
evident. Most farmers here do not
expect more than half the usual
crop, but are comforting them-
selves with the present hopeful
prices of wheat. Half crop and
double price is just as good and
less labor. How to gather some of
the short crop will be a serious
problem. Here is an opportunity
for the inventive genius.

MCLEAN.

The crops are looking very well
in this district since the fine rain
we have had of late. Still it just
came in time to save the crops.
Over half an average crop will be
harvested.

POPULAR PLAINS.

Crop outlook here is none too
bright. With good rains there is
a chance for half a crop yet.

LEBBET.

The crop outlook in this district
is at present not the most encour-
aging. While the rain of last week
did a world of good another shower
is sorely needed at once to prevent
what crop is left being dried out.
A good rain this week would mean
thousands of dollars to the farmers
of this district. May it come and
come soon.

GEORGIA TRAIN WRECK.

All on Board Perish Except the Occupants of the Pullman Sleeper.

Atlanta, Ga., June 25.—A passenger train on the Macon branch of the Southern railway ran into a washout one and a half miles north of McDonough, Ga., last night, and was completely wrecked. The wreck caught fire, and the entire train with the exception of the sleeper was destroyed. Every person on the train except the occupants of the Pullman car perished. Not a member of the train crew escaped. Thirty-five people in all were killed.

The dead are: W. A. Brelay, conductor, Atlanta; J. E. Wood, conductor, Atlanta; J. H. Rhoads, flagman, Atlanta; J. T. Sullivan, engineer; W. W. Bennett, baggage-master, Atlanta; T. E. Madrox, cotton buyer, Atlanta; W. J. Pate, Atlanta; the 12 year old son of W. J. Pate, Atlanta; H. R. Cressman, Pullman conductor, George W. Flourney, Atlanta; H. O. Hightower, Stockbridge, Ga.; W. W. Pars, Macon Ga.; E. R. Hanson, travelling man, supposed to have been from Florida; J. R. Florida, Nashville; W. O. Ellis, bridge-man, Stockbridge; D. Y. Griffith, supervisor, J. H. Rhodes, flagman, John Brantley, white fireman; Will Green, extra fireman; W. L. Morrisett, pump repairer; W. R. Lawrence, foreman extra gang; Ed. Byrd, colored, fireman, Atlanta; Robert Spencer, train porter. Four bodies unidentified, and eight negro section hands.

The following passengers were rescued without serious injury: Jas. L. Rabe, Baltimore; Walter Pope, At.; Mass.; J. C. Flynn, Atlanta; E. Schriener, Chattanooga, Tenn.; J. T. Meek Chattanooga, Tenn.; J. E. Quinlan, flagman; T. C. Carter, Pullman porter Handy Tinslinson.

The train left Macon at 7.10 and was due in Atlanta at 9.45 last night. McDonough was reached on time. At this point connection is made for Columbus, Ga., and here every night the Columbus train is coupled and hauled through to Atlanta. Last night, however, for the first time in many months, the Columbus train was reported two hours late on account of a washout on that branch and the Macon train started out to Atlanta without the Columbus connection. Tremendous rains, of daily occurrence for the past two weeks have swollen all streams in this part of the south and several washouts have been reported on the different roads. Camps creek which runs into the Ocmulgee was over its banks and its water had spread to all the low lands through which it runs. About a mile and a half north of McDonough the creek comes somewhat near the Southern tracks and running alongside of it for some distance passes away under the road by a heavy stone culvert. A cloud burst over that part of the country about 6 o'clock last evening and presumably shortly after dark washed out a section of track nearly 100 feet in length. Into this the swiftly moving train plunged. The storm was still raging and all the passengers, secure as they thought, and sheltered from the inclement weather went to death without an instant's warning.

HEIDELBERG CAPTURED.

Enemy Fled Pursued by Gen. Hamilton's Mounted Men.

London, June 26.—The Transvaal military incidents are summed up officially by Lord Roberts in the following message to the war office:

"Pretoria, June 25.—Buller reached Standerton, June 24. He found a good deal of rolling stock. All the Dutch residents had left the town. The British prisoners captured since our occupation of Pretoria, have been taken to Machadodorp.

"Jan Hamilton occupied Heidelberg Saturday. The enemy fled, pursued by our mounted men, six or seven miles. The previous day Broadwood's cavalry had a skirmish with the enemy, dispersing them completely, and capturing six. Hunter's advance brigade reached Johannesburg toward Heidelberg, June 22. The enemy attacked our post at Honingspruit, and before reinforcements arrived from Kromstad, they had burned three culverts. These had all been repaired by this afternoon.

According to a special dispatch from Cape Town, it seems that in the recent fight at Sand river, the Boers captured 2,000 mail bags, containing a three week's accumulation of letters for Lord Roberts' army, and £4,000 worth of stamps, intended for the use of the troops.

London, June 25.—All the news from South Africa continues satisfactory from the British point of view. Trains ought soon to be running between Durban and Johannesburg.

According to a Pretoria dispatch General Buller possesses full powers to conclude peace and it is reiterated that he is willing to surrender, but President Kruger remains obdurate. The fact that a deputation from Pietersburg in northern Transvaal approached Lord Roberts with an invitation to send a force to receive the submission of the town is regarded as important, for Pietersburg is far removed from the scene of warfare.

Consumption's Victims

CAN OBTAIN NEW HEALTH IF PROMPTLY TREATED.

It was thought Miss Lizzie Smith, of Waterford, Wis. in Consumption, But Her Health Has Been Restored—Advice to Similar Sufferers.

From the Star, Waterford, Ont.

Throughout Canada there are thousands of girls who owe the bloom of health shown in their cheeks, the brightness of eye and elasticity of step, to Dr. Williams' Pink Pills for Pale People. There are few girls in the first years of womanhood who do not suffer more or less from anaemia. We see them everywhere, and they are easily recognized by a sallowness of complexion, or perhaps extreme pallor, they are subject to headaches, dizziness, palpitation of the heart, and feel tired and worn out on the least exertion. To those who suffer in this manner Dr. Williams' Pink Pills offer a speedy and certain relief. Proof of this may be had in our own town. Miss Lizzie Smith, daughter of Mr. William Smith, is today the embodiment of health and activity, yet not so long ago her friends feared that consumption had fastened its fangs upon her. A representative of the Star recently interviewed Mrs. Smith as to the means employed to restore her daughter's health. Mrs. Smith's unhesitating reply was that Dr. Williams' Pink Pills were resorted to for the cure. Mrs. Smith said: "My daughter is nineteen years of age. For some years she has not been very strong and was subject to sick headaches. Last summer she went to work in an establishment in Paris, and had not been there long when her health grew much worse. She consulted a doctor there who said that her blood was in such a bad state that the trouble was likely to develop into consumption, and on hearing this Lizzie at once returned home. When we saw her we feared she was in a decline. She suffered very much from headaches, as was white as chalk, with dark circles under her eyes and the eyes sunken. Her appetite was very fickle and she ate very little. She was very despondent and at times said she did not care whether she lived or not. I decided to give Dr. Williams' Pink Pills, which I heard were so highly recommended in cases like hers, a trial. She had only taken the pills for a couple of weeks when we could see an improvement. By the time she had used a couple of boxes her appetite was much improved, her headaches less frequent, and the spirit of depression passed away. Four boxes more fully restored her health, and today she is as well and as active as though she had never had a day's illness. I really think Dr. Williams' Pink Pills saved her life, and believe they are worth their weight in gold to girls suffering as she did."

Dr. Williams' Pink Pills made rich, red blood, strengthened the nerves, brought the glow of health to pale and sallow cheeks, and made the feeble and despondent feel that life is once more worth living. The complaint are sold only in boxes, the wrapper bearing the full name "Dr. Williams' Pink Pills for Pale People." May be had from all dealers or by mail at 50c. a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

These valuable ingredients enter into the composition of Paracelsus' Vegetable Pills, and serve to render them the agreeable and salutary medicine they are. There are few pills so effective as they in their action.

PRESS EXCURSION.

Members of the Western Canada Press Association Take a Trip East.

When, a year ago, the members of the Western Canada Press Association returned from a trip to the Pacific coast, it was agreed on all hands, and justly so, that that excursion had been one of the most successful ever held in the history of press associations. It was felt also, that no matter what excursions the Western Canada Press Association might hold in the future, it would be next to impossible to quite equal the magnificent success of the Pacific coast excursion of 1893. That was the opinion of all at the time. And while no one would wish to dissent from the universal opinion of the mem-

F. W. HUBBARD, General Manager, Winnipeg, Manitoba.

Members of the excursion party of last year, still, now that the second annual excursion of the Association has been held, it must be conceded on all sides that the present and splendid success of the excursion of 1900 has outdone even the thoroughly enjoyable and altogether successful trip of 1899.

It was a happy suggestion, indeed, that led the Association at its last annual meeting to select an eastern trip for the second annual excursion. The itinerary of all respects an ideal one. It included a visit to many of the leading cities of the United States as well as the chief cities of Eastern Canada. But no itinerary, no matter how complete and perfect, is an arrangement, no matter what points of interest that it embraced, and there were many, no itinerary could have made the excursion the splendid success that it was without the series of receptions and ovations that met the party all along the line. To say that the excursionists were well received and cordially welcomed at every point visited, is not at all sufficient to express the actual facts. They were warmly opened arms everywhere and entertained in such a royal manner as to make it impossible to find words to give adequate expression to one's feelings. It seemed, in many cases, as though the people of the east—many of whom had visited the west in a similar capacity as excursionists—were anxious to give the visiting them—the fact that they had a debt to pay to the westerners, and right nobly did they discharge their obligation with tenfold interest.

The excursion party numbered between 75 and 80 people, and was in all respects a thoroughly representative group of Western Canadian journalists.

TRANSPORTATION ARRANGEMENTS.

Owing to circumstances which arose in connection with the excursion committee's negotiations, it was found necessary to choose St. Paul, Minn., as the place of rendezvous. Here, on the morning of May 29th, the excursionists met. A party of 75, of whom came over the Great Northern railway from Neche, which point was reached via the C. P. R., and the Association is under a deep obligation to Mr. C. E. Macpherson, general passenger agent of the C. P. R., and to Mr. F. I. Whitney, general passenger agent of the Great Northern railway, for the assistance and cooperation which they rendered for transporting such a large contingent of the party to the Twin Cities. Another instalment reached St. Paul via the Northern Pacific, and to Mr. Geo. W. Vaux, the general agent of that line in Winnipeg, many thanks are due for facilitating the transportation arrangements. From St. Paul, the party proceeded to Milwaukee, and thence to Chicago, the party was carried in its two Pullman sleepers, specially chartered for the occasion, over the Northwestern line. To Mr. T. W. Teasdale, the popular general passenger agent of this line, the excursion party was under a heavy obligation. The trip over the Northwestern was thoroughly enjoyed, and there were evidences on all sides of careful operation and efficient management. What added to the pleasure of the trip over the Northwestern line was the fact that, through the kindness of Mr. Teasdale, Mr. Chas. J. Gray, one of the most popular of the company's travelling agents, accompanied the party right through to Chicago.

From Chicago the route was over the Grand Trunk to Detroit, and thence to St. Paul, and thence to Buffalo. The trip over the Grand Trunk was very pleasant indeed. Mr. Geo. W. Vaux, the assistant general passenger agent, and Mr. Chas. J. Gray, both of whom rendered all the assistance in his power to the committee. The trip from Buffalo to Niagara Falls and Lewiston was made over the electric railway, and from Lewiston to Toronto by the ever popular old steamer, Chieftain, of the Niagara Navigation Co.

From Toronto to Montreal the committee had arranged that the party should go all the way by water, travelling by the magnificent new steamer, Toronto, of the Richelieu and Ontario Navigation Co. This arrangement was carried out as far as Prescott, where, unfortunately, it was learned that the connecting boat for Montreal had been damaged, and that the party was taken from that point by rail via the Grand Trunk. The trip down the St. Lawrence and through

the Thousand Islands was, however, greatly enjoyed, and will long be remembered by the members of the party. The officers of the Toronto and the Richelieu, and the company did everything possible to make the trip a pleasant one.

From Montreal to Quebec and return, through the kindness of the minister of railways and canals, the excursionists were transported over the Intercolonial railway. This was a concession which was very much appreciated. Mr. H. A. Price, the superintendent of the company at Montreal, escorted the excursion party to Quebec, and his presence and attention added in no small degree to the pleasure of this portion of the trip. In this connection a delicate little compliment paid to the Association was the preparation, under Mr. Price's direction, of a souvenir menu card for the dinner on the return trip from Quebec, a copy of which was presented to every member of the party.

From Montreal to Ottawa and from Ottawa to Winnipeg, the excursionists were transported over the Canadian Pacific railway, which, according to the programme, had been chartered for the occasion. In the journey from Ottawa to Winnipeg, which was made without any stopovers, the excursionists were attached to the Imperial Limited train, and the party was given an idea of the nature of the time made and of the equipment of this transcontinental flyer. It is needless to say that the run was preeminently satisfactory in every way, and that the party was again in Winnipeg promptly on schedule time.

RESOLUTIONS OF THANKS. At a meeting of the Association held on board the train on our homeward trip, the following resolutions were adopted: Resolved, that the secretary was instructed to forward copies of the same to the parties interested.

Thanks are tendered to the Minnesota Press Association, the Commercial club of St. Paul, and the Board of Trade of Minneapolis, for the cordial and generous reception of the party at St. Paul, and for the special attention given to the party at the Twin Cities. A MEDICINE OF HIGH REPUTE.

A Special Formula of a Great Physician Is Dr. Chase's Nerve Food, the Great Blood Builder.

There are imitators of Dr. A. W. Chase, but none who dare to reproduce his portrait and signature, which are found on every box of his genuine remedies.

Nor are there any preparations that can duplicate the marvellous cures brought about by this great physician of recipe book fame. Here is a sample of the letters daily received from grateful cured ones.

Mr. A. T. P. Lalame, railway agent at Clarenceville, Que., writes:—"For twelve years I have been run down with nervous debility. I suffered much and consulted doctors, and used medicines in vain. Some months ago I heard of Dr. Chase's Nerve Food, used two boxes, and my health improved so rapidly that I ordered twelve more."

"I can say, frankly, that this treatment has no equal in the medical world. While using Dr. Chase's Nerve Food I could do my system being built a small new I am strong and healthy. I cannot recommend it too highly for weak, nervous people."

Mrs. E. H. Young of 214 Greenwood avenue, Jackson, Mich., is a recognized

leader among the lady Macabees, Foresters and other fraternal societies, and is well known throughout the state for her executive ability and social qualities. Mrs. Young has recently recovered from nervous disorders, which he describes in the following words:

"My social and other duties in connection with several fraternal societies had drawn so much upon my strength that I found myself all run down in health. I was very nervous and my appetite could get no real rest from sleep and was troubled very much with pains in the head and back. I tried many sorts of medicine, but could get no permanent benefit until I used Dr. Chase's Nerve Food. I took two boxes as directed, and found a perfect cure for my trouble. Their action was very mild and effective, and I believe them to be the best medicine for nervous troubles that I know of."

There is abundant evidence from physicians and from the many happy people who prove that Dr. Chase's Nerve Food is the most effective nerve restorative obtainable. It makes the blood rich and red, revitalizes the wasted nerve cells, overcomes weakness and disease and builds up the body to perfect health and vigor. Send a box, at all dealers of E. H. Young & Co., Toronto.

ATHONING SPRUIT

CANADIAN RIFLEMEN WHO LOST THEIR LIVES.

Privates Paterson, Morden and Kerr killed - Lieut. Inglis, Privates Miles and Aspinall Drowned.

Toronto, June 28.—The Globe has received the following dispatch from Mr. John A. Ewan, its correspondent with the Canadian Mounted Rifles:

Kronstad, June 28.—The Canadian Rifles are encamped along the railway in the northern portion of Orange River Colony, where General Dewet is causing some trouble. A post of D squadron was attacked on June 22 by a superior number, at a point four miles from their camp at Honing Spruit. The Canadians took to their horses, but suffered severely.

Privates T. E. Patterson, of Macleod; J. F. Morden, of Pincher Creek; and Kerr, were killed.

Lieut. W. M. Inglis, and Privates T. R. Miles of Pincher Creek, and A. Aspinall of the N. W. M. P. were drowned.

Privates Bell and C. P. Ermatinger, N. W. M. P. were made prisoners.

The Boers pursued the party to within rifle shot of the camp when Pte. Ed. F. Waddy of Calgary not caring to be shot or captured without making a good fight for it jumped from his horse and killed two Boers. Another was shot from the camp. Their friends dared not attempt to remove the bodies and the Canadians buried them.

Note.—There are two Kerrs in the Canadian Mounted Rifles. Private S. and Private R. J. of Moosomin and Pincher Creek. Mr. Ewan does not give the initials of the one who was killed. There are also two Bells, Private W. of Calgary and Private Bell of Maple Creek respectively. Private Ermatinger is a son of Judge Ermatinger, of St. Thomas, Ont.

CANADIANS WOUNDED.

Ordered to Attack 10,000 Boers Strongly Entrenched at Zand River.

Toronto, June 28.—The Globe publishes a letter from John Ewan, dated Kronstad, May 14, in the course of which he describes the narrow escape which the Mounted Canadians had at Zand river on May 7.

The squadrons marched all day Sunday, May 6, without seeing aught of the enemy, and indeed it was not until midday on Monday that they caught sight of them again. As they followed in pursuit Monday afternoon they witnessed the blowing up of culverts and bridges as the foe retreated along the railroad. Their orders were to bivouac at Welgelegen, but hardly had they dismounted before the order came to remount and hasten to Zand river, where part of the enemy's convoy was said to be mired in a drift near Virginia Siding. They galloped as hard as possible, and when within a mile and a half of the river the enemy opened fire with a big Crescent gun, which completely outdistanced the battery of horse artillery guns which accompanied the rifles. Besides the Crescent gun, several other Boer guns outranged the British battery. The Crescent seemed to be mounted on a flat car on the railway track. Then the pom pom opened up on our men and there need be no disguising the fact that every body was glad to hear the order to retire.

Concerning the entry into Kronstad Ewan says: On the 12th A squadron, accompanied by the 17th Lancers, had the honor of being the first British troops to march into Kronstad. On the 13th, June 28.—The first battalion of Canadian Mounted Rifles came in for high praise from the commander-in-chief, Lord Roberts, for the gallant manner in which they captured two twelve pounder guns belonging to the Boers at Rostenstein, between Pretoria and Rustenburg. The guns were defeated stiffly by the enemy and when defeated started the Boers in the face they hid the guns in a native kraal prior to their disappearing in the night. The guns were found by the Canadian and brought to camp, an exploit which Lord Roberts recognizes by special mention in the general orders today.

STRATHCONAS AND BOERS.

Pretoria, June 28.—Strathcona's Horse has done one of the great deeds of the war. Leaving Cape Town a month ago they went to Durban by water, and then proceeded by country, reaching General Buller's forces in time to do splendid service, in the advance from New castle on towards Standerton and Pretoria, a service for which they received special mention in General Buller's dispatches to the war office, approved by Lord Roberts.

Now they have done a deed which will live in history. They have blown up the railway bridge at Komati Poort, on the railway between Pretoria and Komati Poort, and have cut off all communication of the Boers with the sea.

All Delagoa Bay railway rolling stock, Boer artillery, the whole Boer army including the gold taken by President Kruger from the mint here, are west of that break and must now inevitably fall into our hands.

HIS POSITION DESPERATE.

Russian General Advancing to Admiral Seymour's Relief.

London, June 28.—The composite brigade of 2,300 men who missed the invasion of Tien Tsin and pushed on to help Admiral Seymour has probably saved him, but the news has not yet reached Che Foo, the nearest wire point. The last steamer brought this message dated Tientsin Monday, June 25: "The Russian general in command of the relief force had decided, in view of Saturday's heavy fighting and marching that one day's rest for the troops was essential, and that the advance should not be resumed until today."

"Meanwhile came Admiral Seymour's heliograph that his position was rendered desperate and that he could only hold out two days. The relief started at dawn today."

Saturday's fighting began at day-break. The allied forces opened with several of the Terrible's 4.7 naval guns, six field guns and numerous machine guns, the firing being at long range. They continued to advance steadily, the Chinese artillery replying. The guns of the allies were more skillfully handled and put the guns of the Chinese out of action one by one, the Chinese retreating about noon.

There was keen rivalry among the representatives of the various nations as to which should enter the city first, and the Americans and British went in neck and neck. The Russians stormed the arsenal, thereby sustaining the largest losses.

DOMINION HOUSE.

Ottawa, June 28.—The elevator bill, with all amendments introduced and adopted was passed in the senate. Mr. Mulock introduced the conciliation bill for the prevention and settlement of all trade disputes. It was read a first time. The DeJure system will be adopted in taking the census. The house went into supply on the railway items, and Mr. Blair's statement showed that the excess of earnings over expenditures on the intercolonial was for the year 1899, a record year, of \$750,000. The emergency ration committee will present majority and minority reports today.

Home From the War.

Windsor, Ont., June 28.—E. D. Craig, the first of the Windsor boys to return from South Africa, arrived home yesterday. There was a large gathering at the depot to meet him. The crowd included a number of pretty girls, and when young Craig stepped from the car he received "Hobson's" greetings. Craig is lame from having been shot in the left leg at the battle of Paardeberg, while doing hospital duty and having sustained a fracture of the right leg, otherwise he is in the best of health.

Kingsford, June 28.—A law granting \$60,000 to the Cataragui Smelting company was carried today. The company is to build works costing \$5,000,000 and to employ 300 hands.

Vancouver, June 28.—Among the prominent passengers who arrived by the Empress of China today was Gen. Schall of the Imperial German army. He has been investigating conditions on the Orient, and will make a special report on his return to the German authorities.

Montreal, June 28.—An electric storm of considerable severity, accompanied by a heavy downpour of rain, swept over the province this morning, interrupting its progress two churches, the Crescent Street Presbyterian church and St. Bridget's Roman Catholic church were struck by lightning and considerably damaged.

VICTORIA CROSSES.

London, June 28.—The Gazette today says that Victoria crosses have been bestowed on Major Phillips, Sergt. Parker and Driver Glascock, of Battery Royal Artillery, for conspicuous bravery in saving four field guns from the enemy's capture at Komati Poort, Orange Free State, March 31 of the present year.

THE RELIEF FORCE

ENTERED TIEN-TSIN THE AFTERNOON OF JUNE 25.

The Loss Was Small—On June 24 a Force Left Tien-Tsin to Rescue Admiral Seymour.

Washington, June 27.—The navy department has received the following cable from Admiral Kempt:

"The relief force reached Tien Tsin on the 23rd. The loss was very small. The Pekin relief force, which left Tien Tsin on June 10, is reported ten miles from Tien Tsin, surrounded. A force left Tien Tsin on the 24th to render assistance."

The news reached Berlin later from the German consul at Chee Foo, who announced that the relief column entered Tien Tsin during the afternoon of June 23, and started again June 24 to rescue Vice-Admiral Seymour, who, with the foreign ministers, was said to be occupying a position twelve and a half miles from Tien Tsin on Sunday and was hard pressed by a great force of Boers and Chinese regulars. Possibly the Japanese report that Seymour was a prisoner and that the ministers had left Pekin guarded by Chinese soldiers is merely a distorted version of the Berlin story. But in any event definite news may be expected speedily, and it is confidently believed here that Seymour and his companions will be safely delivered from their plight.

According to a report of a Chinaman refugee who has arrived at Shanghai, the condition of Tien Tsin was horrible. Everywhere in the streets were the bodies of massacred men and women, Americans as well as other nationalities. The Hong Kong and German banks, he adds, were destroyed early during the bombardment.

SURRENDER OF DE VILLIERS.

Lord Roberts is Leaving the Circle Around the Boers.

London, June 27.—The Boer commandos in the eastern part of the Orange River colony appear to be broken up by their leaders for the time into smaller parties to harass the large columns of British. They are incessantly cutting off their scouts, sniping their pickets and making a show of force here and there which is bewildering to slow moving bodies; and shows Dewet's genius in these guerrilla operations on the Boer side in these last days of hostilities.

Lord Roberts' columns are steadily contracting the circle of their advance.

The war office received the following dispatch from Lord Roberts:

"Pretoria Residency, June 27.—General Warren reports the rebellion in Cape Colony, north of the Orange river, is now over. The last formidable body, under Commandant de Villiers, surrendered on June 26, consisting of about 250 men, 250 horses, 18 wagons, 260 rifles and 100,000 rounds of ammunition."

"General Baden-Powell reports pacification is going on satisfactorily in the Rustenburg district."

Thinks Canada Would Suit the Boers.

London, June 27.—The Daily Mail says Canada wants the Boers, who are willing to strike across the water.

"There is no place where they will be more welcome, or better off than in the Canadian Northwest," said Preston, official agent of the Ottawa government to supervise Canadian immigration from Europe. Preston is in a position to speak authoritatively. He has already laid the suggestion before the parliamentary committee on immigration and is sanguine that practically results will come of the suggestion."

Preston left London for Belgium, where he hopes to further his scheme of the great Boer trek to Canada.

Steamer Alaskan Reached.

Seattle, Wn., June 27.—The steamer Cleveland, which has arrived here from Nome, reports that all the vessels at Nome are safe with the exception of the Alaskan, which ran on the beach and is a total loss with her 600 tons of cargo. Her passengers are safe. Her cargo went ashore and became the prey of the beach people. Several lighters went ashore in the storm, but nothing was lost.

Conditions at Nome are unchanged. The old timers and new arrivals are stampeding for Tonkin, where rich discoveries are being made. They are also going to Port Clarence in great numbers.

MARAVIEFF'S SUCCESSOR.

London, June 27.—The Paris correspondent of the Daily Express says: "Four Russian ambassadors are here by accident or design. Count Cassini, ambassador to the United States; Count de Nolde, ambassador to Italy; Count Koppke, ambassador to Austria-Hungary and Prince Goursouff, ambassador to France."

IMMIGRANTS COMING.

Montreal, June 27.—Twelve hundred foreign immigrants will arrive at Halifax on the Asperian in a fortnight and will be forwarded to Winnipeg.

ROSCOE E. LAW,
EDITOR AND MANAGER

THURSDAY, JULY 5 1900.

"Let us have faith that right makes might; and in that faith let us dare to do our duty as we understand it."

HIS POSITION.

SEVERAL Territorial papers have been clamoring for Mr. Scott's reply to the Liberal convention on his nomination as their standard bearer in West Assiniboia for the next Dominion election. These same papers knew or should have known that Mr. Scott was absent on the press excursion at the time of nomination and did not return until nearly three weeks later. In last week's issue of the Leader Mr. Scott writes a long letter to the Liberal Convention chairman. In it he sets forth his position, pointing out his determination to support western interests on all occasions. He reviews the public questions of the day and clearly states his relation to the present government.

Though all may not agree with him they must admit that his letter is a clear, candid presentation of his position.

NOTES.

THE Dominion government is awaking to the necessity of protecting the timber of Manitoba and the North-west and an item of \$10,000 has been included in the supplementaries for that purpose.

THE Intercolonial railway has at last been placed on a paying footing. The federal government deserves great credit in wiping out the annual deficit, the road having earned a surplus of \$120,000 in the past year.

WE all honor and admire the boys who have gone from Canada to fight for British prestige and right in South Africa but it is to be hoped that Canadian girls will avoid following the foolish precedent of our American cousins by giving an "Hobsonian" welcome to every returning trooper.

THE United States are rapidly learning the penalties attaching to imperialism. Not two years have elapsed since they embarked on their imperialistic course and already they find themselves forced into complications and alliances with European and Asiatic nations. Whether they will or no the tide is carrying them onward. The St. James Gazette remarks that her experience will teach her that it is not the desire to grab distant lands

but unavoidable destiny that drives Great Britain forward. A great trading nation must ever protect her citizens and her commerce and now that Americans have become involved in Chinese affairs they can never again rest indifferent.

"THE Right Hon. Lord Strathcona, that erratic but in some respects highly successful politician, for whom we have precious little respect." Such are words the editor of the Grenfell Sun makes use of in last issue in referring to our High Commissioner. Lord Strathcona would doubtless feel very sad if he knew our friend's opinion. What can he have done to merit such harsh criticism? A man of the people, he has risen to his present position by sheer ability and fills the high office he holds in a manner to merit the respect and honor of every one. He has done much for Canada, and though we are not a hero worshipper, we admire the man who is respected by both parties and honored by Britons the world over. As to his being erratic, the Sun editor should have nothing to say. Some time ago he acknowledged that he supported the Liberal party at the last elections but expressed his disgust with the present regime and an intention to oppose the government. He has since joined the Liberal editors' association and been hammering away in favor of that party in a manner to thoroughly renege his promised change.

As for Mr. Sifton, whether he is retired from the ministry or remains, it is the same thing with him—he is politically dead and all there is now to be done is to bury him. If his leader does not do so for the good of the party, it is certain that the people of Manitoba will when the chance comes their way. Months ago, I said that if the Liberals hoped to win at the next election there would have to be a reorganization of the cabinet, with Sifton and Tarte left out, had it been done at that time the party might have been saved, but it is very questionable if reorganization, practically upon the field of battle, for the campaign has already opened, and indeed it is very doubtful if they are wise in even attempting it. It is true that the rumored changes are confined principally to the opposition press, which is not in the secrets of the party, and is not really sure whether it knows what it is talking about, and the only thing which makes them worth repeating is the fact that the changes suggested are such as everyone recognizes would be in the interests of Liberalism and what is of vastly more importance, in the interests also of good government. Mr. Tarte and Mr. Sifton are largely responsible for the increased expenditure of the country. Mr. Tarte in Paris has spent \$25,000 on a building, which we are told could be erected in Ottawa for \$20,000, but that is a small affair compared to many of his larger expenditures. His motto is "Spend." We spent a lot last year, but watch us next year. We will have made more and spent more. That is the way Mr. Tarte finances. But even this might be forgiven him, from a party point of view, had he been more guarded with his tongue, and more willing to fall into line with the sentiments of the country. So long as he is bent on combating public sentiment, he is too heavy a load for any party to carry.—Events.

Our Washington Letter.

One gift of Canada the United States would be glad to return. This is the Canadian thistle, on which Lyster H. Dewey, of the Division of Botany, Agricultural Department, has compiled a most interesting report. He says no fewer than 29 states have proscribed the Canadian thistle and most of them pre-erited penalties for permitting the weed to produce seed. Where a dense sod can be formed this will choke out the thistle.

Dominion Day Celebration

A Big Day at Indian Head.

All things conspired to give Indian Head a successful celebration of the federation of the provinces on Monday last. The weather was a little warmer than was absolutely necessary but was not unbearable even with the large crowd that besieged the town. No program was provided for the morning and the visitors spent the time in strolling about, shopping and meeting friends.

In the afternoon all wended their way to the exhibition grounds where at two o'clock the fun began. While horse and foot races were being run on the track, lacrosse and baseball games were taking place on the field.

GRENFELL VS. SINTALUTA.

The first match was between the lacrosse teams of Grenfell and Sintaluta. The large concourse who angled the races to watch this contest bore evidence to the popularity of our national game. Much of the poor play exhibited is attributable to the unfavorable condition of the field but even to an inexperienced observer it was evident that the teams were either tyros or lacked practice. Little or no team playing was done and, in fact, the whole match was ragged. From the start it was evident that Grenfell was superior, they failing to win easily only by their utterly reckless throwing. When time was called the score stood 4 to 3 in favor of Grenfell.

SINTALUTA VS. QU'APPELLE.

The next event was a base ball match between the above teams.

The following is a list of the players:

Sintaluta—Thompson, A. Travis, J. Bommer, Anderson, B. Travis, O. Bates, L. Travis, A. Stauffer and W. Sadler.

Qu'Appelle, Matheson, Hunter, Harmer, Richardson, McDonald, Marr, T. Wilson, Kritzweiser, Christie.

Dr. Rutledge, of Kenis, acted as umpire most satisfactorily.

Qu'Appelle went to bat first and succeeded in scoring one run. Sintaluta found our pitcher a snap making 18 runs in their first innings. Then our boys woke up and with a change of pitchers kept the Sintaluta score down.

Six innings were played by Qu'Appelle to five by Sintaluta with a total for the latter of 25 runs as against 15 by the former.

The score in order of innings was as follows:

Sintaluta, 18, 1, 0, 5, 1.

Qu'Appelle, 1, 5, 2, 2, 1, 7.

Somewhat play was made by both teams but the necessity for thorough team practice was noticeable. Qu'Appelle has the material for a first-class amateur team if they will but get down to work.

WOLSELEY VS. INDIAN HEAD.

This was a lacrosse match between the old rivals and was fast and furious from start to finish. In the first half Wolseley seemed sure to lose, Indian Head having won four games to their none. Suddenly Wolseley awoke to a realization of their position and sailed in for victory. The score ran up rapidly until at the close they had beaten their opponents by 5 to 4 and won well-merited applause.

The results of the races with time of each are given as follows:

DOMINION HOUSE.

THE COMMONS TO CONSIDER THE EMERGENCY RATION QUESTION.

Statements Reported to Have Been Made by Mr. Tarte in His Paris Speech Were Discussed.

Ottawa, June 30.—In the house yesterday it was decided to take up the emergency rations question on Monday evening next.

Sir Wilfrid Laurier moved that the house sit tomorrow. This was carried. Messrs. Britton, Craig and Henderson objected to the house sitting on Monday.

Mr. Ellis suggested that speeches in the house should be limited to ten minutes as there was evidently three weeks more ahead.

Sir Wilfrid Laurier said that he would have to stand by the precedent first set by Sir John Thompson, and, therefore, sit on Monday.

Mr. Foster called the attention of the premier to an article in a Montreal Liberal newspaper regarding statements attributed to Mr. Tarte in France. He said that Mr. Tarte was the representative of all Canada and not a section of it.

Sir Wilfrid Laurier pointed out that he had already told the house that Mr. Tarte had complained to him of being misrepresented in the press, therefore, it would be better to wait until something definite was obtained. Public men could scarcely be held responsible for all that was said about them in the press. Mr. Tarte was a loyal British subject. This was shown in the message which he and other French Canadian British subjects sent on the 24th inst. to Her Majesty the Queen. Mr. Tarte was proud of his origin and who could blame him? He (Laurier) did not know what Mr. Tarte meant if he did say the French in Canada were more French this year than last. The French Canadians were as much French last year as this, and as much this year as last year. Then as to Mr. Tarte's alleged statement that French Canadians were to become so numerous soon, surely the acting leader of the opposition would not object to the French Canadians becoming more numerous. That was a laudable ambition. French Canadians, while loyal to their origin, were also loyal to the British crown.

Dates of Fall Assizes.

Winnipeg, June 30.—The full court has fixed the fall assizes for the province as follows:

Winnipeg, Nov. 6, before Mr. Justice Dubuc.

Brandon, Nov. 13, before Mr. Justice Richards.

Portage la Prairie, Nov. 20, before Chief Justice Killam.

The full court sat this morning to hear appeals. Present, Chief Justice Killam, Mr. Justice Bain and Mr. Justice Richards.

N. W. Acetylene Gas Co. vs. Jackson. Plaintiff sued to recover \$89 for a 20-light acetylene gas machine, burners, etc. The defence was the machine was sold under a warranty and was to be taken back if it did not do good work; and that plaintiffs were notified to take the machine back as it did not do good work. Judge Walker gave judgment that the plaintiffs were to take the machine back, defendants to pay \$24.40, the cost of installation. Plaintiffs appealed to the full court. Mr. Howell, Q.C., and Mr. Mathers for plaintiffs. Mr. Crawford for defendant.

The full court will sit on Thursday, July 12, for the delivery of judgments.

Pacific Coast Elections.

Vancouver, June 30.—The election recount before Chief Justice McCall was completed yesterday. The Martin candidate, Mr. Gilmour's plurality of votes over Charles Wilson, Q.C., the Conservative candidate, had been cut down from twenty-four to fifteen and there are twenty-eight ballots on which judgment is reserved. If Wilson wins in sixteen of these he will be elected.

The Martin wing of the Liberal wing of the Liberal party in Vancouver, held a meeting last night and passed a resolution to which only Robt. McPherson, M.P.P., dissented, expressing a want of confidence in the premier, Sir Wilfrid Laurier and dissatisfaction in the appointment of Sir Henri Joly de Lotbiniere as lieutenant governor.

School Lands Sale.

Winnipeg, June 30.—The school lands sale opened promptly at 1 o'clock this afternoon in Selkirk hall under the management of Mr. J. W. Greenway. Mr. W. D. Styles, of Rosser, auctioned off the parcels at surprisingly good prices. About 200 persons were present, the majority being composed of farmers from the Winnipeg district in which the lands are located. The parcels were knocked down at prices running from \$5 to \$15 an acre.

The fact that over 200 parcels of land were on the list necessitated quick dispatch in the work and within an hour after the opening of the sale over 60 sales had been recorded, the bidding in many instances being very keen. The sale will be concluded this afternoon.

CROP CONDITIONS.

Great Improvement Noted by Mr. Skinner on a Trip from the Pacific Coast.

Winnipeg, June 30.—Mr. Thos. Skinner, accompanied by Mrs. Skinner, and General Superintendent Osborne, of the C.P.R., arrived in the city last evening by special train from an extended trip over the Canadian Pacific railway to the coast, through the mining country of British Columbia and over a vast territory covered by the branch lines in the province. Mr. Skinner is the financial agent of the C. P. R. for Europe with headquarters at London, Eng., and is one of the directors of that company, besides being a director of the Hudson's Bay company, the Commercial Cable company, and is proprietor of the London Canadian Gazette. He is making this third visit to Canada and is now en route home, intending to leave Montreal in about two weeks time. Speaking to a Free Press reporter, who interviewed him in his private car as to the impressions of his present trip, Mr. Skinner stated that he was very agreeably surprised on returning to Manitoba from the coast on the marked improvement in the appearance of the crops since his visit a few weeks previous, when the country was suffering greatly for rain. "Of course the crops are very much damaged," said Mr. Skinner, but the general belief is that a half crop will be secured and that with the increased acreage and the splendid condition of farmers this season will not create the ruin in the country that some would imagine from reports. The country, I believe is in a much better shape this year to stand a slight set back such as this, than ever before. The farmers are comfortably and substantially housed and after a year such as you had last year, and with the prospects for high prices for wheat this year prospects should not appear so blue.

Mr. Skinner was much impressed with the development of the mining industry in British Columbia and with the splendid railway facilities in the extension of the Boundary Creek lines and the several other branches in the territories, and industry should grow out into one of the most important of the world. The British Columbia political situation has had a great deal to do with the holding back of operation of the mines, but now that these troubles were over the development will go ahead rapidly.

Speaking of affairs in England as affecting the financial institutions Mr. Skinner said that the war had the effect of accumulating a great deal of money the nine months of the war in the Transvaal having had the effect of stopping investments and during this time the money has been gathered in.

MRS. JUDGE HORNE DEAD.

Li-G-v, Patterson's Sister-in-Law Dies of Heart Failure in Chicago.

Windsor, Ont., June 30.—Word was received yesterday of the sudden death at Chicago, of Mrs. Horne, wife of Judge Horne, of Windsor, and sister of the wife of Mr. Patterson, lieutenant-governor of Manitoba. Mrs. Horne had been troubled for some time with an affection of the heart, and was seized with a sudden and severe attack, passing away early Thursday morning. Judge Horne left for Chicago yesterday.

Mrs. Horne was well known in Windsor, where she lived for many years before making her home in Chicago. She was a member of one of the oldest families in Western Ontario. Her father, the late Major Elliott, was at one time collector of customs in Windsor and was prominent in politics throughout the district. Mrs. Horne is survived by several sisters and a brother, Col. Elliott, who is chief magistrate of Cape Colony, South Africa, and took a prominent part in suppressing the rebellion among the Dutch there during the present war.

Mrs. Simpson Dead.

Winnipeg, June 30.—A very sad event occurred in the city this morning at 230 Vaughan street. Mrs. G. A. Simpson, wife of the inspector of public works, taking her own life while suffering from over-wrought nerves, brought on by the poor state of health in which she has been for some time. The deepest sympathy is felt for Mr. Simpson and Mr. G. R. Simpson, the only son. About 8.30 this morning Mr. Simpson left his wife to go down stairs and had only been away for a few minutes when he was startled by a noise upstairs. He called to Mr. Harris, the assessment commissioner, who was passing and ran to his wife. Mr. Simpson bending over the form of his wife, who had opened one of the veins in her throat with a razor. She expired almost immediately.

Paris Police Find a Lighted Bomb.

Paris, June 30.—A lighted bomb, charged with powder and pieces of lead, was found last evening shortly before midnight by the police in front of the entrance door to the residence of M. Bulet, procurator of the republic, No. 22, Rue de Valenciennes. It was at the house of M. Bulet, in the Rue de Valenciennes, that occurred the terrible explosion in March, 1892, the author of which was the notorious Anarchist, Ravachol.

TEN DAYS' SIEGE.

SEYMOUR FOUND SURROUNDED BY HORDES OF CHINESE.

Col. Doward Commanded the Relief Column—Fannatical Courage of the Celestials.

London, June 29.—The casualties of the international force attacking Tien Tsin were the following: Americans—Killed 8 and wounded 3. British—Killed 2, wounded 1. Germans—Killed 10, wounded 37. Russians—Killed 10, wounded 37. The gun fire of the British and Americans is described as beautiful. After the relieving force pushed on to relieve Admiral Seymour, the Chinese regulars under Gen. Nieh, says a dispatch from Shanghai, again attacked Tien Tsin fiercely and bombarded the foreign office settlement with a terrible fire.

Col. Doward, British, commanded the column that relieved Admiral Seymour. American marines participated in the achievement. The admiral was found entrenched and surrounded by immense hordes of Chinese who were driven off by the relieving column after a brisk fight. His men had made a brilliant resistance, never failing in courage for 15 days of continuous fighting. During ten days the men were on quarter rations. They started with provisions for ten days, and they could have held out a day or two longer. The column was a few miles beyond Lofa.

Col. Poo, June 29.—Admiral Seymour's expedition has been relieved, having failed to connect with Pekin. There is no news from Pekin. Col. Schellie, Russian, commanding the combined forces of 10,000 men, is supposed to be proceeding to Pekin. Admiral Seymour's expedition is returning to Tien Tsin. His force has suffered greatly. It is estimated that from 40,000 to 80,000 Chinese troops are now before Pekin. Boxers from all sections are swarming there.

The telegram adds: "Seymour arrived at Tien Tsin with 312 of his force wounded, besides 62 killed. The damage done to Tien Tsin has been much exaggerated. Shanghai is quiet."

Rome, June 29.—The Italian consul of Shanghai telegraphs that the viceroys of the provinces of the Yang Tse Kiang valley have resolved to maintain order provided the powers do not intervene so long as order prevails. The consuls, it is added, unanimously accepted the proposals and signed a declaration to that effect.

CARRINGTON'S CANADIANS.

Battery Boys Who Assisted at Maj. King's Relief Reach Rustenburg.

London, June 29.—Three hundred Canadians of C battery, who accompanied Gen. Carrington from Berlin to the relief of Mafeking, have reached Rustenburg, west of Pretoria, and the headquarters of Major General Baden-Powell.

The Daily Telegraph correspondent at Pretoria describes the accident in which twenty-five Canadians from Gen. Hutton's force met two hundred Boers, whom they bluffed by pretending that support was near by the Boers fled, and the gallant Canadians captured two guns.

London, June 29.—Lord Roberts has sent bulletins of two small fights occurring on June 26 and 27, in which the Boers were discomfited. In a dispatch from Pretoria, dated yesterday, he says: "A small force of mounted troops with two guns commanded by Lieut. Col. Drepper, was attacked by the enemy under Pretors and Nel, on the morning of June 26, seven miles north of Senekal. They beat off the enemy and burned their laager. Our casualties were three killed and 10 wounded."

Gen. Hunter, temporarily commanding Ian Hamilton's brigade, made one march yesterday from Heidelberg toward Frankfort without meeting any opposition. The enemy attacked our Redoubt Spruit post, on the railway yesterday, but were easily beaten off by a detachment of the Derbyshire Light Infantry, the West Australian Mounted Rifles, a 15-pounder and an armoured train.

The Pretoria correspondent of the Daily Telegraph in a dispatch dated yesterday says: "Since Sunday Gen. French on the left, Gen. Ian Hamilton on the right, and the 11th division in the centre have been endeavoring to surround the enemy's position in the hills 15 miles east. There was fighting for three days, but Tuesday night the enemy decamped, going eastward. The total casualties were under 100."

A Splendid Showing.

Toronto, June 29.—A special cable to the Globe says: "A table compiled by the Financial Times shows that during the recent months of depression Canadian three-per-cent depreciated less in value than any gilt edged investment stock on the London market. In the period referred to consols lost 10 1/2 points while Canadians dropped only 2 1/2. Moreover Canadian 2 1/2 per cent not included in the table lost only 7 1/2 per cent."

NO FREIGHT CHARGES.

Outside Exhibitors at Winnipeg Industrial Will Be Favored by Railways.

Winnipeg, June 29.—Prospects for a large number of exhibits at the Industrial exhibition are very bright. This is due largely to the fact that the Canadian Pacific, Northern Pacific and Canadian Northern railways have agreed to ship to the exhibition and back all exhibits from Manitoba and the Northwest Territories, under these exceptionally favorable conditions, there is no doubt but that the number of exhibits that will be shown this year will eclipse all previous records.

The Canadian Pacific and Canadian Northern Territories at a charge of 40 per cent of the one way freight for the double journey, provided the ownership of the exhibits has not changed, and that they are returned immediately after the fair to the points from which they were originally shipped. Recognizing the special efforts of the directors in their determination of making this year's annual fair lead all previous exhibitions, they have generously agreed to refund to the exhibition association the total amount of freight charges collected by them on exhibits under the above arrangements, and in order that the exhibitors may receive the full benefit of this generosity, the exhibition association will refund to each exhibitor the full amount of freight so paid.

The Northern Pacific has already agreed to refund direct to the exhibitors the freight charges on exhibits.

DOMINION PARLIAMENT.

Ottawa, June 29.—The house spent yesterday debating Sir Hilbert Tupper's Yukon resolution, which occupied an hour in reading, and was introduced by Mr. Bell, of Pictou. The resolution was finally voted down, the government majority being 36. Mr. Fielding announced that no further supplementaries would be brought down. The committee on emergency rations presented a report exonerating the minister of militia from all charges.

The Chinese immigration bill was up in the Senate yesterday. Senators Aimon and MacDonald (Prince Edward Island), thought the bill was a disgrace to the age. Mr. Clomow denounced the principle of the bill. Mr. Vidal resisted the first tax, and would the second. Mr. McMillan said the bill was against British freedom. Mr. Gilmour thought the Chinese useful immigrants. Senator Templeman supported the bill. He said Chinamen were not a desirable class.

Sir Charles Tupper has left for England.

SUICIDE NEAR GRETTA.

Lilly Brock, Ag'd 18, Drowned Herself in Pembina River.

Gretta, June 29.—A girl 18 years of age, named Lilly Brock, committed suicide by drowning in the Pembina river, Wednesday afternoon, the 27th inst., at Neche, N.D. No cause is known for her rash act.

The stable of Philip Rau was damaged by fire on Tuesday. Fortunately the fire was discovered before gaining much headway. A large gang of men with a good supply of water saved what might have been a serious fire. It is supposed to have originated by small boys playing with matches. The following morning at 5 o'clock a fire was discovered in the stable of C. Piper and was checked after great difficulty. The latter fire is supposed to have originated from live ashes.

Fatally Injured While Plowing.

Moosomin, June 29.—During the rain and hail storm which passed over this district on Tuesday afternoon, Herbert Scirrow, formerly of Bradford, England, but lately in the employ of Mr. A. Dalgleish, was working in a field with a four horse sulky plow. The horses became unmanageable, and ran away, dragging the unfortunate man about a mile from the place where they started. When found his head was caught in the plough, and the attending physician thinks he had held of the lever of the plough. His head and neck were badly bruised, and death took place Wednesday night as a result of his injuries. Up to the time of his death he remained unconscious. The sad event has cast a gloom over the community, as all were well acquainted with the young man, who was quite intelligent, thought highly of him. Deceased was well connected in the old country.

A Woman Swallows Acid.

Winnipeg, June 29.—All day yesterday a woman in a Thomas street resort lay hovering between life and death, as the result of poison administered by her own hand. Jealousy is the reason assigned for the rash act. The woman apparently had reason to doubt the faithfulness of her lover, and in his presence threatened to take her own life if her demands were not complied with. The object of her affections paid no heed to her representations and was about to leave the place when the hysterical woman seized a bottle of sulphuric acid and drank the entire contents. A physician was immediately summoned and little hope of saving the woman's life is entertained.

SUPPLEMENTARY ESTIMATES.

Amounts Required for Improvements to Postoffice and for Asphalt Pavements.

Ottawa, June 27.—The supplementary estimates were brought down tonight, a total of \$7,344,000.

For Manitoba there is for public buildings: Swan River immigrant buildings, \$1,200; Winnipeg Dominion public buildings, asphalt pavements, \$2,100; Winnipeg post office improvements, \$1,500; total, 5,800.

For Northwest Territories: Red Deer court house and lock-up, \$5,000; Red Deer land office, \$700; Carnduff court house, \$6,000; Edmonton court house and jail, \$6,000; Macleod court house, \$5,000; Yorkton court house, \$5,000; Prince Albert court house, artesian well and other improvements, \$1,100; Edmonton immigration building, \$3,000; Calgary court house alterations and fittings, \$1,800; Battleford, repairs to registrar's house, \$1,000; Regina, Northwest government buildings to refund to the government of the Northwest Territories amounts debursed by them 1-97-8 for repairs, renewals and fittings, \$1,773; Regina government house improvements and repairs, \$1,600; Regina land titles office, \$5,000; Battleford court house repairs, \$900; total, \$43,973.

There is also \$2,000 for the Calgary exhibition.

There is a re-vote of \$125,000 for St. Andrew's rapids.

FAMINE-STRICKEN INDIA.

The Rate of Mortality Reduced—Great Suffering Still Continues.

Chicago, June 27.—Lady Curzon, vicereine of India, writing to S. D. Eldridge, of the Chicago India Famine Relief committee, says:

"The famine is greater in its intensity over the areas afflicted than any previously recorded visitation. Fewer persons will die, yet incomparably more persons are suffering. The absolute failure of the last two autumns and spring harvests and the unprecedented loss of cattle in western and central India makes the task of reaping more arduous than on any previous occasion. The government has reduced the rate of mortality, and even in the worst districts the figures show only a slight excess over the normal rate. The government has spent \$26,000,000 upon direct relief, \$10,000,000 upon suspensions, and revisions of land revenue, \$6,000,000 upon advances for the purchase of seed and cattle, and \$5,000,000 upon loans to the districts. The relief committee has distributed \$2,500,000 through various channels."

Retirement of Hon. Mr. Tarte.

Ottawa, June 27.—It may, with reasonable certainty, be taken for granted, that Tarte will be retired from the cabinet at an early date. It is stated that a number of members from Quebec have notified Laurier they will not run again unless Tarte is retired, and the feeling of the Ontario Liberal contingent seems to be against him.

It is not that Tarte is not personally liked, but his practice of making speeches which embarrass the government, and place others in a false position, has caused many of his friends to weaken, and to agree that it would be safer for the party and improve the prospects at the coming election if he would retire.

Brenier, the new minister, who is very highly regarded as a Liberal of the old school, may become minister of public works.

Canadian Fatalities.

Kinston, Ont., June 27.—Mrs. G. H. Curtis, aged 30, drank too much in mistake for whiskey last night and died soon after. Mrs. Curtis picked up the wrong bottle in the dark.

New Hamburg, June 27.—Mrs. Freeman, mother-in-law of O. Voelkel, baker, was fatally burned last night by a coal oil lamp exploding and igniting her dress. She had an infant in her arms at the time but managed to save it from injury.

Cornwall, Ont., June 27.—Leo Lagave, of Bancroft, was drowned in Kees creek, a mile east of Bancroft yesterday afternoon, by falling out of his boat while fishing.

Arrested for Stealing Cattle.

Ottawa, June 27.—The sheriff of Neche, North Dakota, came over to Rosendell, Lisgar, Manitoba, and arrested Henry Martins and Wm. Leach on a charge of stealing cattle in North Dakota. The prisoners were taken across the line at Pembina and were detained for two years, and after that respectively. This it is asserted, was without the process of law, and representations will be made to the United States authorities at Washington of the subject.

Refitted.

The Leland Hotel has been thoroughly repaired and refurnished and promises, under the new proprietors, Love & Raymond, to be one of the best hostleries in the Territories.

Dominion Day Number.

The illustrated portion of The Globe, Toronto, for Saturday, June 30, consists of a four-page sheet the front of which contains a large Union Jack in colors, bearing the Canadian coat of arms and surrounded by a wreath of maple leaves printed in green. It is a handsome souvenir of Dominion Day.

Being Repaired.

The Council are repairing Springbrook road. Settlers in that district will much appreciate this work and should bear it in mind when elections come on. Speaking of roads, we believe it would be a wise move to open one south of this town. We would then get the trade of Wascana settlers which at present goes to Indian Head.

Good for Her.

A Cardston young lady about whom some objectionable remarks were made by some men in that town, armed herself with a revolver and having found one of her traducers made him go down on his knees on one of the principal streets and apologize in the most abject and humble manner.

Welcome.

Visitors to Qu'Appelle Thursday next, July 12, will receive a welcome at The Progress office. Call and see us whether you owe for your subscription or not. Come in and shake hands and if you have a friend bring him along. Let us know how your district is prospering. First door north of Beauchamp & Co's.

Prof. Wiggins, of Ottawa, predicts that the weather during July and August will not be above the average temperature, but he says there will be strong splashes of heat. The hottest days will be July 21 to 27, and August 23 to 28. These periods to be immediately followed by cold weather for several days, caused by violent thunder storms. The last day of June will be warm, but July will come to us with a cloak over her shoulders.

Canadian Magazine.

The July number of this magazine presents a most interesting variety of reading matter. "The future of Imperialism," "Bribery and Corruption," and "The Hull, Ottawa fire," are leading articles. A Canadian story by W. A. Fraser, "The Pagan Indians of Canada," and another contribution on his war experiences by Frederic Villiers are a few of the more attractive features of the number. Every Canadian should take this purely Canadian product.

No Mill at Lumsden.

Some time ago Messrs. Russell and Wilson, then of Qu'Appelle, made an offer to build a flour mill at Lumsden if \$4,000 was subscribed by the district. This sum has failed to materialize as the people wished first to learn the financial standing of the promoters. A letter was sent them requesting them to call a meeting and give the required information. They refused to do until the \$4,000 was subscribed. Consequently Lumsden will have no mill in the near future.

Crowded Out.

The final contribution on the press excursion is held over until next issue owing to lack of space.

Brandon Coll. Quarterly.

We have received a copy of this journal containing a picture of the college group; also of the college building. The Baptists have reason to be proud of their college and the good work it is doing.

July 4th.

Yesterday was American Day but no Stars and Stripes were flying in town. We are apparently too far from the boundary to indulge in such courtesies.
